

# Searching Guidebook

The Search function allows you to search for information within the Guidebook and expand your search options. The default search function gives you results from DoD Directive 5000.1, DoD Instruction 5000.2, and the Defense Acquisition Guidebook...

Or you can target your search by adding additional criteria

default

A screenshot of the Search page. It includes a search input field with a 'Search' button. Below it, a section titled 'Limit Search To' allows narrowing the search by selecting 'All Info' (radio button) or 'Titles Only' (radio button). A note states: 'Search can also be further narrowed to one or more relevant areas.' Under 'Full Site' (radio button), there is a 'Selected Libraries' section with a list of checkboxes: Policy Documents, Defense Acquisition Guidebook (checked), Community Areas (CoPs), FAR, DFARS, & Others, Glossary & Acronyms, Software Tools, AT&L Web Sites, News & Publications, Ask a Professor, Forms, Acquisition Events, Guidebooks & Handbooks, and Ethics. To the right, 'Search Tips' provide instructions on using phrases, multiple words, and special characters. A 'Search Help' link is provided. At the bottom, 'Other Search Engines' lists links like OSD Acq Reform, Alta Vista, Defense Link, YAHOO, FastSearch.com, Google, and SearchMii.com.

Additional Search features and help are also provided on this page
